

Airbnb Market Analysis Dashboard (2016)

BY SOURAV ROY

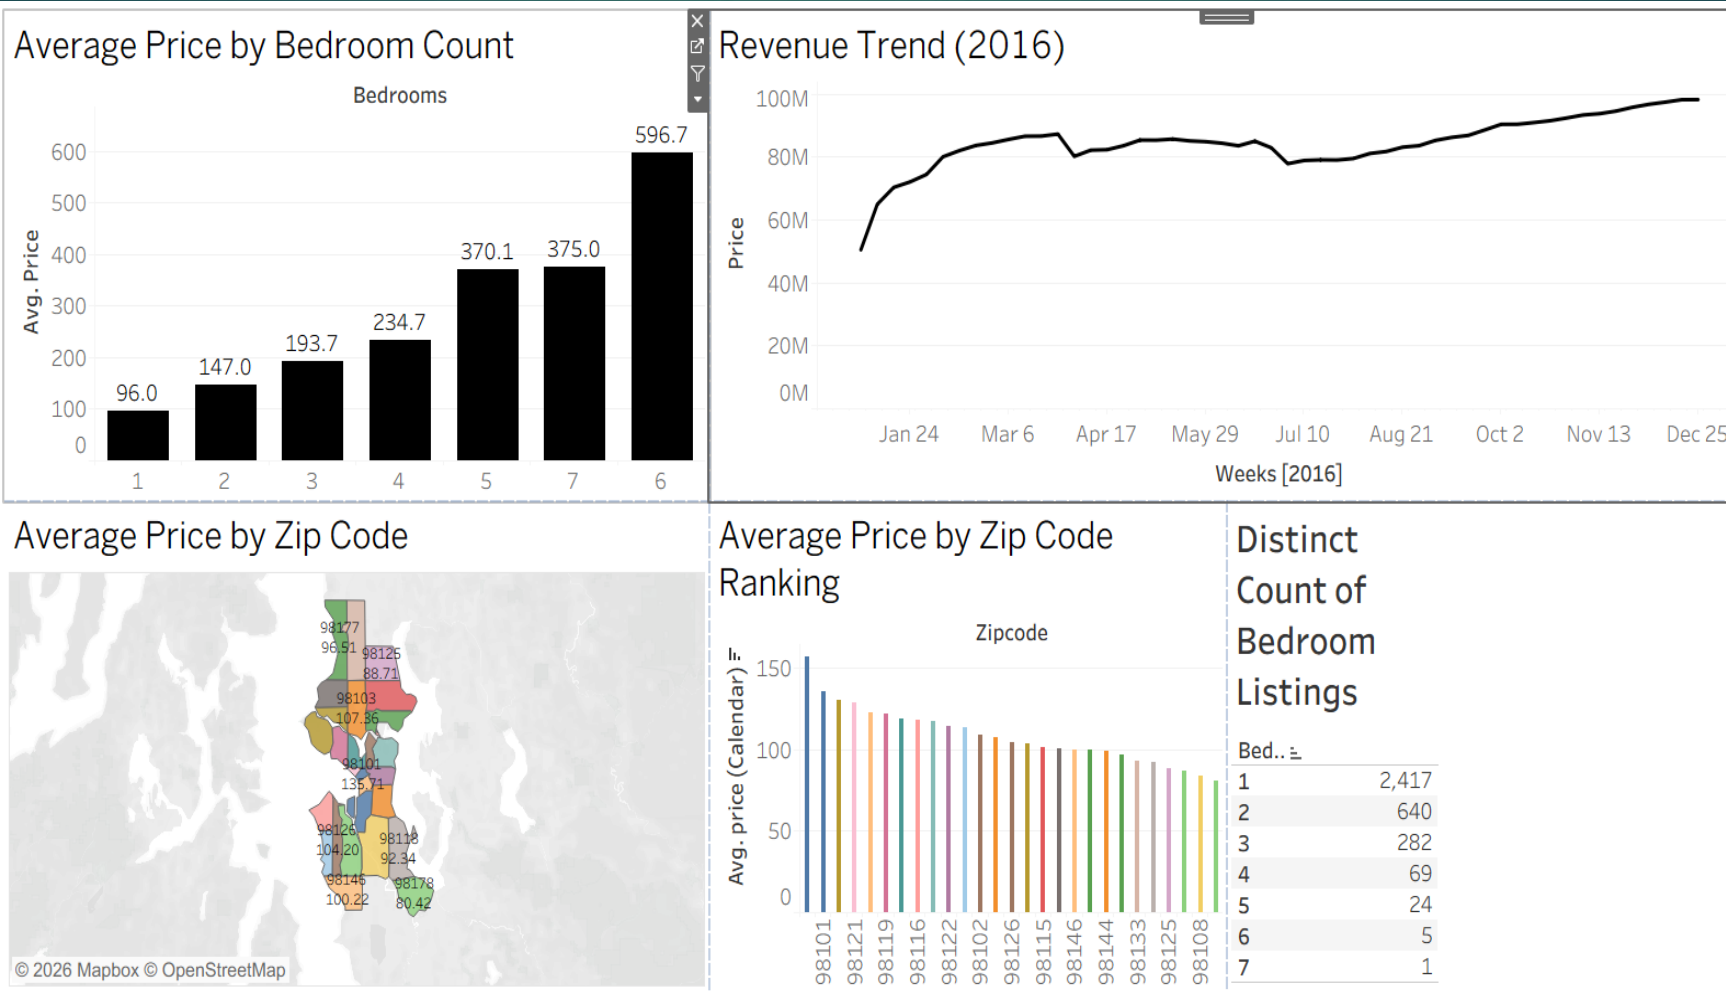

Tableau | Data Cleaning | Data Visualization | Trend Analysis | Geographic Analysis | Business Intelligence

Objective

- ▶ Analyze Airbnb pricing patterns, revenue trends, and geographic performance to identify growth opportunities.

The Dashboard

Key Insights

- ▶ 1. Larger properties command significantly higher nightly rates, with 6-bedroom listings averaging nearly 6x the price of 1-bedroom listings.
- ▶ 2. Revenue nearly doubled during 2016, growing from approximately \$50M to \$100M.
- ▶ 3. Most listings are concentrated in smaller properties
- ▶ 4. Significant pricing differences exist across zip codes
- ▶ 5. Geographic hotspots generate higher average prices

Recommendations

- ▶ 1. Encourage host acquisition in high-performing zip codes to maximize revenue potential.
- ▶ 2. Promote larger properties
- ▶ 3. Optimize pricing strategies by location
- ▶ 4. Expand supply in high-demand regions
- ▶ 5. Leverage revenue growth trends
